## SIGHT WORDS

Each week the students will be learning five sight words. These words are high frequency words which will help your child in their reading success. We will be focusing on one new word each day, and we will be reciting them in the same order every time. This helps students memorize the pattern as well as the word itself. Students will eventually be able to recognize all the words. It is also beneficial if they are reviewed at home. Each Friday, five words will be sent home which we have been or will be working on. This week's words are:

**the    to**  
**and    a    I**

Each month in Bible, the students have a new Bible passage to memorize. We discuss the meaning of the passage and recite it each day but I would ask that you please take time to memorize the scriptures at home with your child as well. It most definitely helps to contribute to your child's overall success.

## September Memory Verse

**In the beginning God created the heavens and the earth. God saw all that He had made and it was very good. Genesis 1:1, 31a**

## Headphones

In Grade 1, we use headphones for our computer classes. Some of the Reading and Math programs we use involve students listening to questions or stories. It is important that students have headphones that fit them and that work. Should your child's headphones break or stop working during the year (as sometimes happens,) I will be sending them home to be replaced. Also, the "earbud" type of headphones do not work well for younger students as they often do not fit in small ears. Please send an "over-the-head" type set of headphones.

September 11, 2020

Request from Mrs. Taves (Music): Mrs. Taves is asking Kindergarten and Grade 1 students to bring a SMALL (not longer than 6 inches) stuffy to be their Beat Buddy. Please send it in a Ziploc bag, and we will add it to your child's music kit for the year.

If you have any extras in your recycling bin, Mrs. Taves would happily accept a few donations to help equip all of our students.
